Founded in 1986, the Multidisciplinary Association for Psychedelic Studies (MAPS) is a 501(c)(3) non-profit research and educational organization that develops medical, legal, and cultural contexts for people to benefit from the careful uses of psychedelics and marijuana.

MAPS furthers its mission by:

- Developing psychedelics and marijuana into prescription medicines.
- Training therapists and working to establish a network of treatment centers.
- Supporting scientific research into spirituality, creativity, and neuroscience.
- Educating the public honestly about the risks and benefits of psychedelics and marijuana.

MAPS envisions a world where psychedelics and marijuana are safely and legally available for beneficial uses, and where research is governed by rigorous scientific evaluation of their risks and benefits.

MAPS relies on the generosity of individual donors to achieve our mission. Now that research into the beneficial potential of psychedelics is again being conducted under federal guidelines, the challenge has become one of funding. No funding is currently available for this research from governments, pharmaceutical companies, or major foundations. That means that the future of psychedelic and marijuana research is in the hands of individual donors. Please consider making a donation today.

Linnae Ponté, Director of Harm Reduction, earned her BA in Biological Psychology from New College of Florida. She's assisted data collection and analysis at University of South Florida’s Cardiovascular Psychophysiology Laboratory, MOTE Marine Mammal Aquarium Psychophysical Laboratory, East-West College of Natural Medicine, and the West Mamprusi Civic Union in Ghana.

Natalie Lyla Ginsberg, Research and Advocacy Coordinator, earned her Master’s in Social Work from Columbia University in 2014, and her Bachelor’s in History from Yale University in 2011. At Columbia, Natalie served as a Policy Fellow at the Drug Policy Alliance, where she helped legalize medical marijuana in her home state of New York, and worked to end New York’s racist marijuana arrests. At MAPS, Natalie advocates for unbiased research.

Ben Shechet, Clinical Research Associate, received his BA in Psychology from Princeton University, where his work included research on motor learning in children, investigation of flow state phenomena, and a thesis that developed a neuroeconomic framework for understanding the phenomenon of boredom. Prior to joining MAPS, he worked as a Clinical Research Coordinator at a private clinical trials site, investigating potential treatments for Alzheimer’s Disease.

Berra Yazar-Klosinski, Ph.D., Clinical Research Scientist, earned her Ph.D. in Molecular, Cell, and Developmental Biology from University of California Santa Cruz, where she focused most of her time on social psychology and newspaper production. She is a mycophile, artist, and language enthusiast.

Ilsa Jerome, Ph.D., Research and Information Specialist, earned a Ph.D. in psychology from the University of Maryland. She helps design studies, gathers information on study drugs by keeping abreast of current literature and discussion with other researchers, manages documents related to MAPS-supported studies, and supports the MAPS psychedelic literature bibliography.

Sarah Jordan, Publications Associate, earned her B.A. in Environmental Policy with a minor in Journalism from the University of California at Santa Cruz. Prior to joining MAPS, she was Communications and Development Assistant at Firelight Foundation in Santa Cruz, CA.

Bryce Montgomery, Web and Multimedia Associate, studied film production at West Valley College, joining MAPS as Social Media Intern in the summer of 2011. Bryce now serves as Multimedia Associate, bringing his background in film production and social media to public education about psychedelics.

Colin Hennigan, Clinical Data Coordinator, brings a background in research design methodology and database management to MAPS. He earned his B.A. in Political Science at the University of Chicago, and his M.A. in Political Science at University of California, Davis. He is currently working on the creation of MAPS’ online clinical database and the implementation of the Therapist Adherence Program.
