Robin Sylvan, Ph.D.
- 
- 35 Membership/Staff Pages**

**MAPS** (Multidisciplinary Association for Psychedelic Studies) is a membership-based organization working to assist researchers worldwide to design, fund, conduct, obtain governmental approval for, and report on psychedelic research in humans. Founded in 1986, **MAPS is an IRS-approved 501 (c)(3) non-profit corporation funded by tax deductible donations.** MAPS is primarily focused on assisting scientists to conduct human studies to generate essential information about the risks and therapeutic benefits of MDMA, other psychedelics, and marijuana, **with the goal of eventually gaining government approval for their medical uses.** Interested parties wishing to copy any portion of this publication are encouraged to do so and are kindly requested to credit MAPS and include our address. The *MAPS Bulletin* is produced by a small group of dedicated staff and volunteers. **Your participation, financial or otherwise, is welcome.**
