

**MAPS** (Multidisciplinary Association for Psychedelic Studies) is a membership-based organization. Founded in 1986, **MAPS is an IRS approved 501 (c)(3) non-profit corporation funded by tax deductible donations.**

Our mission is 1) to treat conditions for which conventional medicines provide limited relief—such as posttraumatic stress disorder (PTSD), pain, drug dependence, anxiety and depression associated with end-of-life issues—by developing psychedelics and marijuana into prescription medicines; 2) to cure many thousands of people by building a network of clinics where treatments can be provided; and 3) to educate the public honestly about the risks and benefits of psychedelics and marijuana.

Interested parties wishing to copy any portion of this publication are encouraged to do so and are kindly requested to credit MAPS and include our address. The MAPS Bulletin is produced by a small group of dedicated staff and volunteers. **Your participation, financial or otherwise, is welcome.**

In terms of our mission,  
FY 08-09 was our  
best year to date,  
MAPS gathered  
substantially more data  
than ever before,  
and gained more experience  
designing, obtaining approval for,  
funding, conducting,  
monitoring, and evaluating  
psychedelic psychotherapy  
clinical trials.
