

Founded in 1986, the Multidisciplinary Association for Psychedelic Studies (MAPS) is a **501(c)(3) non-profit** research and educational organization that develops medical, legal, and cultural contexts for people to benefit from the careful uses of psychedelics and marijuana.

MAPS furthers its mission by:

- Developing psychedelics and marijuana into prescription medicines.
- Training therapists and working to establish a network of treatment centers.
- Supporting scientific research into spirituality, creativity, and neuroscience.
- Educating the public honestly about the risks and benefits of psychedelics and marijuana.

Cover Art: *Rolling Thunder* by Simon Haiduk
 48" x 24" Digital Painting

Limited Edition Giclee Print: Retail Price \$450.

Purchase this piece at maps.org/store.
 50% of proceeds benefit MAPS research and education projects.

Growing up in British Columbia, **Simon Haiduk** developed strong foundations in visual arts, music and an affinity with nature. In 1999 he attended a Fine Arts program at UCC in Kamloops and soon discovered that he would rather travel and learn more on his own. This led Simon to various parts of Central and South America. In 2004 he gravitated towards painting as a full time endeavor. As a mostly self-taught artist, Simon has explored various mediums, and subjects, with a strong influence in spiritual themes. After some time touring in art shows and festivals with a group of similarly themed artists, Simon decided to further his skills in Digital Design, graduating from Vancouver Film School in 2007. He currently works out of his studio as a freelance artist, while continuing to explore an ever-expanding palette of creative endeavors. Simon's art continues to be shown in various public and private galleries throughout the world.
