

Manifesting Minds

A Review of Psychedelics in Science, Medicine, Sex, and Spirituality

by Rick Doblin, Ph.D., and Brad Burge

“The varieties of psychedelic experience are boundless and beyond words, but this enlightening anthology manages to map much of that ineffable territory. Thank you, MAPS, for helping us understand the science and the spirit that support this endless journey.

—Don Lattin, author of *The Harvard Psychedelic Club* and *Distilled Spirits*

A “best of” collection of articles and essays previously published in the *MAPS Bulletin*, featuring essays and interviews with Timothy Leary, Aldous Huxley, Ram Dass, Albert Hofmann, Alexander (Sasha) Shulgin, Daniel Pinchbeck, Tim Robbins, Arne Naess, and electronic musician Simon Posford.

Topics include the healing use of marijuana and psychedelics—including MDMA, ibogaine, LSD, and ayahuasca—for PTSD, anxiety, depression, and drug addiction, as well as the positive effects of these substances in the realm of the arts, family, spirituality, ecology, and technology.

Release Date January 7, 2014.
Available for pre-order

ABOUT THE EDITORS

Rick Doblin, Ph.D., is the founder and executive director of the Multidisciplinary Association for Psychedelic Studies (MAPS). He received his doctorate in Public Policy from Harvard’s Kennedy School of Government, where he wrote his dissertation on the regulation of the medical uses of psychedelics and marijuana. He founded MAPS in 1986, and lives in Boston with his wife and three children.

Brad Burge is the director of communications and marketing for the Multidisciplinary Association for Psychedelic Studies (MAPS). His graduate work focused on the political, scientific, and cultural changes required to make illicit drugs into legitimate medicines. His professional work is dedicated to helping people develop responsible relationships with themselves, each other, and their pharmacological tools.
