

**Are you a U.S. Military Veteran?
Have you experienced traumatic stress?**

Adult military veterans who experienced trauma while in military service are needed for a research study. Study volunteers will complete 17 outpatient study visits over 12 weeks and a 6-month follow-up visit.

The study will evaluate the effects of an investigational drug. Eligibility is determined by medical evaluation and modest compensation for participation is provided.

**All study visits occur at Scottsdale Research Institute
and Johns Hopkins University.**
