

# GIVE THE GIFT OF HEALING TRAUMA.

“We have seen from previous studies that MDMA-assisted psychotherapy can bring about remission from PTSD symptoms for individuals who have not been able to find relief from existing treatments.”

—Marcela Ot’alora, M.A., L.P.C.

Marcela is a MAPS-sponsored researcher who recently completed a Phase 2 trial of MDMA-assisted psychotherapy for posttraumatic stress disorder (PTSD) in Boulder, Colorado. Now, Marcela is leading a Phase 3 trial and hopes to make it a legal treatment by 2021.

You can help make psychedelic medicine a reality for millions of people suffering from PTSD.
