Founded in 1986, the Multidisciplinary Association for Psychedelic Studies (MAPS) is a 501(c)(3) non-profit research and educational organization that develops medical, legal, and cultural contexts for people to benefit from the careful uses of psychedelics and marijuana.

As we steadfastly advance towards U.S. Food and Drug Administration approval of MDMA-assisted psychotherapy for PTSD—anticipated around late 2021—your support is more vital than ever. We need your help to heal trauma, create a more compassionate culture, and make psychedelic therapy a legal treatment.
